

## The Kanata Networker expands reach with Ottawa Business Journal partnership

The voice of the Kanata North Business Association is expanding its reach and coverage of the local tech community this fall.

Since 2013, The Kanata Networker has been promoting and connecting the businesses and people of Kanata North.

Starting in November, the Kanata North Business Association and Ottawa Business Journal are combining their efforts to offer a targeted multi-channel publication that highlights this unique and high-growth Ottawa community while informing business leaders about the strength of Kanata's world-class technology cluster.

Through this partnership, exclusive news about the people and businesses in Canada's largest technology park will reach more than 20,000 readers 4 times a year in print and online.
